# Stocks, Grain and Provisions

LATEST MOVEMENTS IN BY EXCLUSIVE WIRE TO INDUSTRIAL CENTERS, THE LAKE COUNTY TIMES

## NEW YORK LETTER.

New York, Aug. 6 .- Further deliber ration over the Landis decision rendered against the Standard Oil company produced renewed liquidation in the stock market today. At the closing hour tonight prices are off an average of about three points from the opening figures. The insipld bull move ment which was started in the latter part of July has evaporated entirely In its stead, bear operators are in control of the situation. They are taking every advantage in the way of news to depress values and sentiment in the street is decidedly bearish.

A few pretty shrewd traders are quoted as saying that the largest selling of St. Paul, Union Pacific, Southern Pacific, Smelters, Colorado Fuel and Copper emanates from 26 Broadway and is for the account of Standard Oil interests. These traders also express the opinion that the slump in values is not over by any means.

They argue as long as the government continues to legislate against corporations and railroads, stock bring about a feeling of distrust than any fundamental weakness in the gen-

Copper and Smelters were about the weakest issues on the list. The former decline from 82 3-8 to 80 1-8; the latter from 109% to 106. The unsettled condition of the metal market as the principal reason for the break, But it looks more like general liquidation by butside interests than anything else. No doubt another reducper pound which is high in comparison number of exceptions. with the general decrease in the demand; steel and iron prices have been reduced in conformity with the general retrenchment in business. It is only natural to expect the copper proditions have been more reassuring of should have benefitted the grain car- 203,000 bu; oats, 3,000 bu. rying railroad stocks, but the timidity of bull speculators has retarded any rally in the market whatever.

At the close tonight, the market gives the appearance of a further decline in values.

## CHICAGO LETTER.

Chicago, Aug. 6.—WHEAT—Except for a little early flash of strength in wheat the market was weak from the start. Liquidation was under way a good part of the time, the liquidation considerable from 90% down, the early strength was due to the low temperatures in the extreme northwest, and the fact that Liverpool, closed since Friday, came only one-quarter to threeeights lower as compared to a decline here in the same time of seven-eights New York Office, 42 BROADWAY to I cent. Later advices from the porthwest were favorable.

Discrediting black rust or frost pos-
